The data collection associated with the Evaluation of the Elderly Nutrition Services Program (ENSP) is necessary to meet three broad objectives of ACL: (1) to provide information to support program planning,

including an analysis of program processes, (2) to develop information about program efficiency and cost issues, and (3) to assess program effectiveness, as measured by the program's effects on a variety of important outcomes, including nutrient adequacy, socialization opportunities, health outcomes, and, ultimately, helping elderly people avoid institutionalization. The renewal is to complete the data collection related to objective 3.

In response to the 60-day Federal Register notice related to this proposed data collection and published on July 19, 2016, no relevant comments were received. The proposed data collection tool may be found on the ACL website:
